MATTHEW REINHART BUDIMAN

Information Systems Student | Bridging Business & Technology | +62 813-1037-4755 | matthew.budiman@binus.ac.id | dionmatt25@gmail.com | linkedin.com/in/matthewreinhart23 | West Jakarta, Indonesia

PROFESSIONAL SUMMARY

Information Systems undergraduate at BINUS University who enjoys connecting business needs with technology solutions. Experienced in both analytical work (sales analysis, process mapping, and system design) and business-oriented activities (running a small business and customer engagement). Skilled in communication, leadership, and problem-solving, seeking an internship across business analysis, business development, operations, or technology roles, with a passion for continuous learning.

EDUCATION

BINUS University — West Jakarta, Indonesia 2024 - Present

Bachelor of Information Systems

SMA Tarsisius — Jakarta, Indonesia 2021 - 2023

Social Science Major (IPS)

EXPERIENCE

Co-Founder & Operator — TOKEMET KITCH 2025 - Present

• Co-founded and run a home-based food business offering products such as risol, fried meatballs, chicken noodles, and rice meals, serving 20–30 orders per day.

- Managed end-to-end operations with a business partner, including purchasing, production, pricing, and customer service.
- Operated a pre-order (PO) system via WhatsApp, coordinating orders and ensuring on-time fulfillment.
- Analyzed daily sales and customer preferences to adjust the menu and improve profitability.

Games Crew — Blibli Event 2024

- Managed game booth operations and prize distribution for event visitors.
- Distributed flyers and promotional materials to attract visitors and increase event engagement.
- Recorded and monitored inventory used for event activities to maintain accurate stock control.

Logistics & Cashier Crew — RTG Event (PRJ) Jun – Jul 2024

- Introduced products directly to visitors during promotional events, increasing product visibility.
- Engaged with customers to boost product awareness and support sales activities.
- Managed cash handling and transaction accuracy during high-traffic event hours.

ORGANIZATION EXPERIENCE

Vice Chairman I – Liturgy Division — Saint Peter and Paul Church 2026 – 2029

- Serve as the main liaison between the division head and the leaders of three subsections (Altar Servers, Altar Girls, and Ceremonial).
- Relay directions from the division head to each subsection and communicate their updates and concerns back to leadership.
- Help coordinate the three subsections to keep liturgical activities aligned and running smoothly.

Liturgical Coordinator — KMK BINUS Feb 2026 – Feb 2027

- Led and coordinated a team of 17 members in the liturgy division to ensure consistent and well-prepared execution of activities.
- Assigned and scheduled service officers for each Mass to ensure smooth and organized liturgy operations.
- Prepared Mass texts and liturgical materials, and coordinated with priests (Romo) for Mass arrangements.
- Trained and guided members to strengthen the team's readiness and performance.

Person in Charge (PIC) — Bible Camp, KMK BINUS Nov 2026

- Prepared invitation and negotiation letters as part of event organization.
- Coordinated with venue providers and priests (Romo) to arrange event logistics.
- Reached out to and followed up with committee members to maintain communication and ensure task completion.

Vice Chairman — Putra Altar Santo Tarsisius 2023 – 2024

- Managed the service schedule of altar servers and ensured balanced task distribution among members.
- Coordinated, mentored, and trained new members to strengthen team capability.
- Assisted the chairman in managing activities and led the team when the chairman was unavailable.
- Developed an attendance form and tracked members' attendance records to improve monitoring and accountability

ACADEMIC PROJECTS

Data Modeling & BI Dashboard – Movie Industry Analysis Data Modeling | 2024
Designed a relational data model connecting five tables (Movies, Cast, Crew, Reviews, Genres) using Excel Power Pivot, and built an interactive dashboard with pivot tables, slicers, and charts to analyze revenue, ratings, and category distribution**.**

House Price Regression Analysis Data Modeling | 2024
Performed simple and multiple regression on a 500-record dataset to identify key drivers of house prices, using scatter plots, R-squared, and ANOVA to interpret results and summarize business insights.

Eat and Go – F&B Mobile App Prototype (ISAD) Figma | 2024

Designed a food & beverage app prototype with a sales analytics dashboard, based on analyzed user requirements.

St Sport – Sports Booking System Design | 2024

Modeled system requirements using Use Case, Sequence, and Activity diagrams, translating business needs into system documentation.

VOLUNTEER EXPERIENCE

Student Mentor — SASC (Student Advisory and Support Center), BINUS 2026 – Present

- Mentored students with GPAs below the minimum standard to help improve their academic performance.
- Taught and explained difficult course materials to support students' understanding and grades.
